

ILLUMINATION

The I Am is the Father within. I am the Light of my life. My life is the inner radiance of the Light of understanding that I am. I exist. The awareness that I exist is the Light of my life. This Light comes from within. This Inner Light is the source of all life. The I Am consciousness is life. In the beginning God said, 'Let there be Light'. The Inner Light is the source of life. The Inner Light that comes from within us gives us the insight to know our existence.

One of the great Teachers said, 'I think, therefore I am'. The Inner Light that illuminates this consciousness gives me the awareness of my existence and without the Inner Light I would not know that I exist. In other words; without the Inner Light life would not be. It is Light that life springs from and if the Light were to be no more life would be no more.

To enlighten you of all these Truths is to give you the understanding of access to more Light; to enrichen your life to a greater height of being. The foundation of life is built on understanding. Understanding and Light are the same; they are synonymous. I Am is the cornerstone and the foundation of life. The greater understanding of I Am comes from the illumination of the Inner Light. The I Am consciousness is the beginning to the illumination of the Inner Light that shows you the way to freedom from the lower realms and connecting you to the higher vibrations of the higher realms of Divine Light and Love; the true reality of being, your rightful heritage to the kingdom of God, the kingdom of heaven beyond all time and space, beyond all illusion. I am the reality of my existence.

Illumination is to go beyond just understanding that you exist in and through the Inner Light. Illumination is to see and understand the higher realities of life. Illumination is to look with the inner eye, through the Inner Light and through the fusion of the conscious awareness with the Higher Self, become, in the consciousness, the Light.
